

# SHEEP

# ROTARY FORCE

What makes our Sheep Rotary Force **unique is the pivot gate with counter weight**, in other words, with no effort you can lift the gate over the animals to keep the **continuous flow of incoming sheep**.

## FEATURES

- ✓ 1/2 Circle forcing pen that can easily be moved from one location to another.
- ✓ Pivot gate with counter weight to keep the continuous flow of incoming sheep
- ✓ Allow for bulk numbers to be reduced to single file down a race.
- ✓ Sheeted hurdles streamline stock flow by reducing distractions from other sheep or external movements.
- ✓ Designed to keep the continuous flow of sheep coming in.

Built with 32 x 2mm square tubing and clad with galvanized sheeting which is intelligently assembled for quiet operation.
